

The perfect complement to any stall

What is Poly Pillow?

- Poly Pillow is the ergonomically-designed plastic brisket barrier – a friendly alternative to traditional wooden or concrete brisket boards.
- Poly Pillow is arched and rounded for cow comfort.
- Its ribbed design makes Poly Pillow strong and durable.

What are its benefits to the cow?

- Poly Pillow permits natural leg extension while the cow is lying down.
- Its gentle curves and smooth surface protect dewclaws.
- Poly Pillow allows the proper 'lunge room' on rising.
- It gently supports the cow from moving too far ahead while resting.

How does Poly Pillow benefit the dairy producer?

- Poly Pillow is an integral part of the ultimate housing environment, promoting better herd health:
 - no more damaged dewclaws
 - less stress as the cow is resting in a natural position.

Why Promat?

- Promat Ltd is 'the leader in animal comfort' because of its diligence in research and testing. Our patented system is comfortably supporting over 1,000,000 dairy cows. Knowledgeable cow comfort sales representatives are always available to assist.
